- ▶ The quality complies with the requirements regarding the product and separate quality indicators

MAKING BUSINESS IN UKRAINE

Ukraine is a sovereign, independent, democratic, law-based and the largest country in Europe with more than thousand years' history and unique traditions. It is bordered by Poland, Slovakia, Hungary, Moldova and Romania to the west, Belarus to the north and the Black Sea and the Azov Sea to the south.

FOREIGN TRADE

Ukraine's main export products are metals and agriculture products (together accounting for 40% of exports). The main items imported are mineral fuel, machines, equipment, etc. CIS and European countries account for more than 70% of Ukraine's foreign trade.

According to Doing Business

2013, published by the World Bank Group, Ukraine stands at 145 in the ranking of 185 economies on the ease of trading across borders. The indicator is based on the number of documents required and the time and cost to export and import.

FREE TRADE ZONES

On 30 July 2012, Ukraine ratified an agreement establishing a free trade zone in the Commonwealth of Independent States (CIS) countries - Ukraine, Belarus, Kazakhstan, Armenia, Kyrgyzstan, Moldova, Tajikistan and Uzbekistan etc. The government expects this FTA will help increase trade turnover between Ukraine and the CIS countries by 35% in the medium term.

The mentioned FTA has a number

of exceptions in respect of goods, the import and export of which is critical for Ukraine. They include preservation of export duty on ferroalloys, scrap metal and sunflower seeds as envisaged by the agreements with WTO, and a 50% sugar import duty.

The FTA between Ukraine and EFTA - the European Free Trade Association (Iceland, Lichtenstein, Switzerland and Norway) came into force on 1 June 2012.

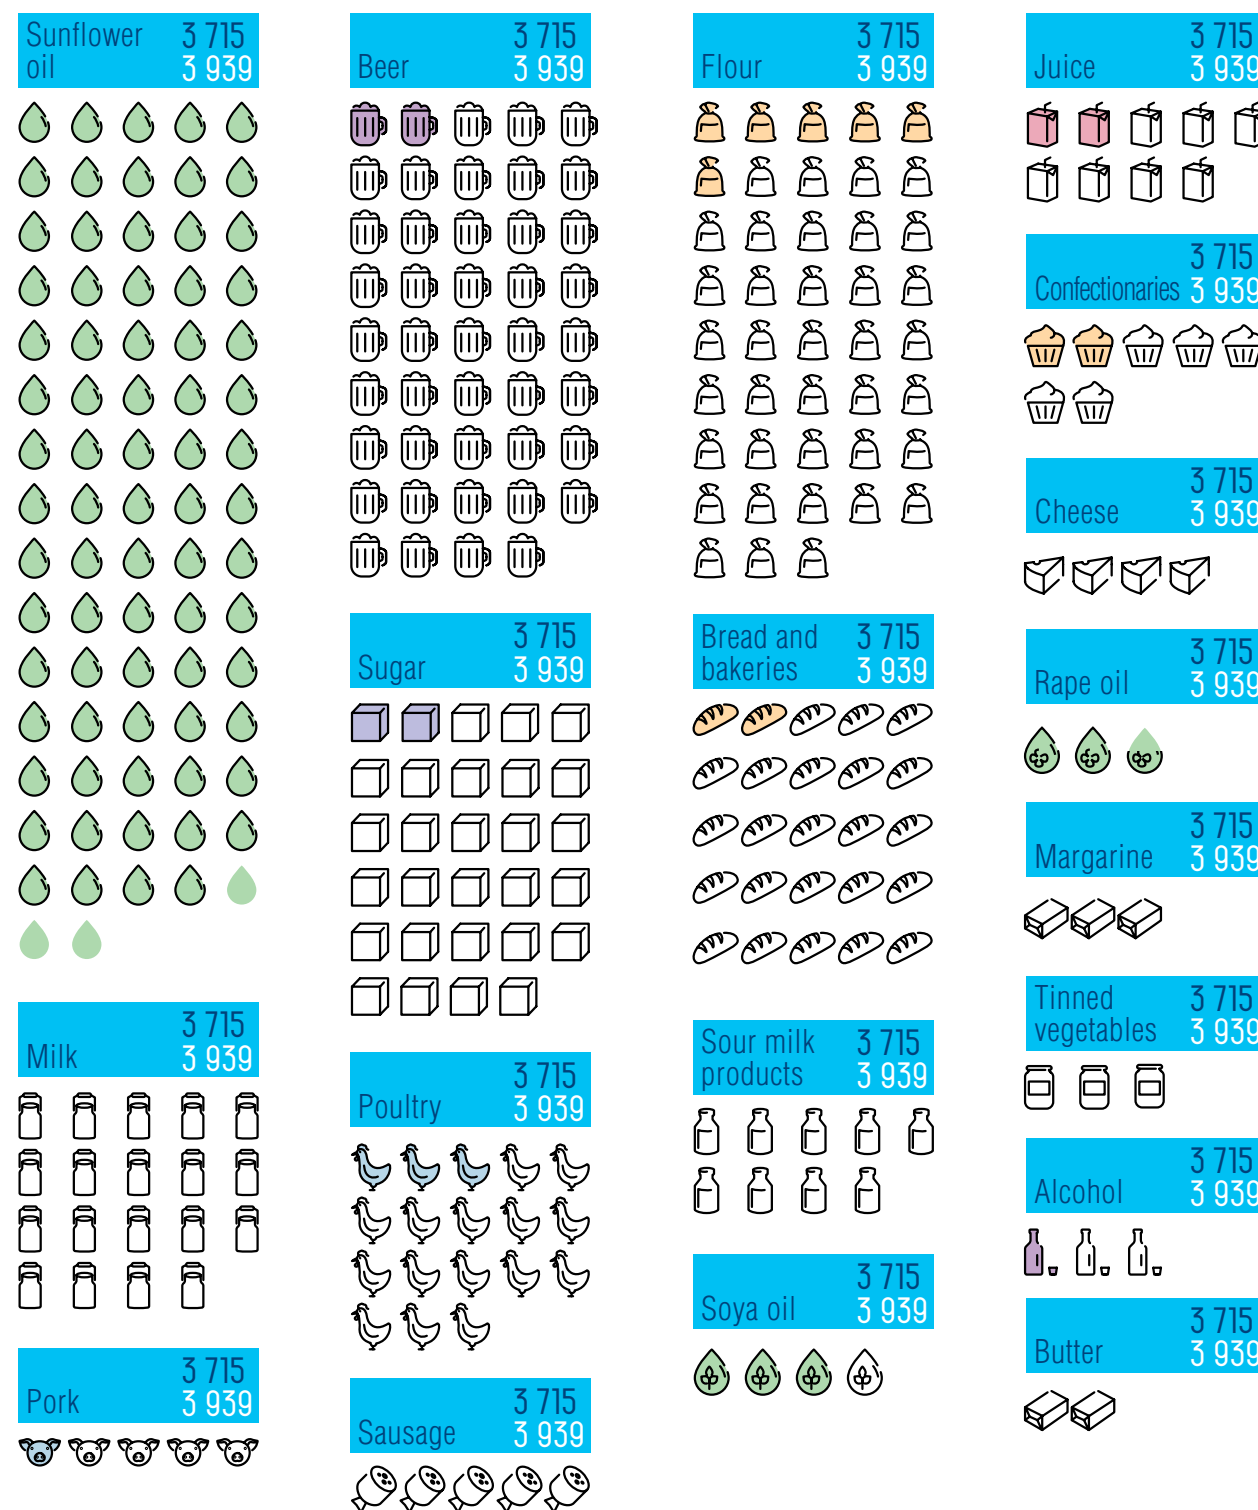

Ukraine is also a party to FTAs with Georgia, Macedonia, Montenegro and is in the process of negotiating such arrangements with Canada, Turkey, Syria, Serbia, Singapore, Morocco and Israel (as well as the EU agreement mentioned above).

INTERNATIONAL AGREEMENTS

Ukraine has established diplomatic relations with over 170 countries.

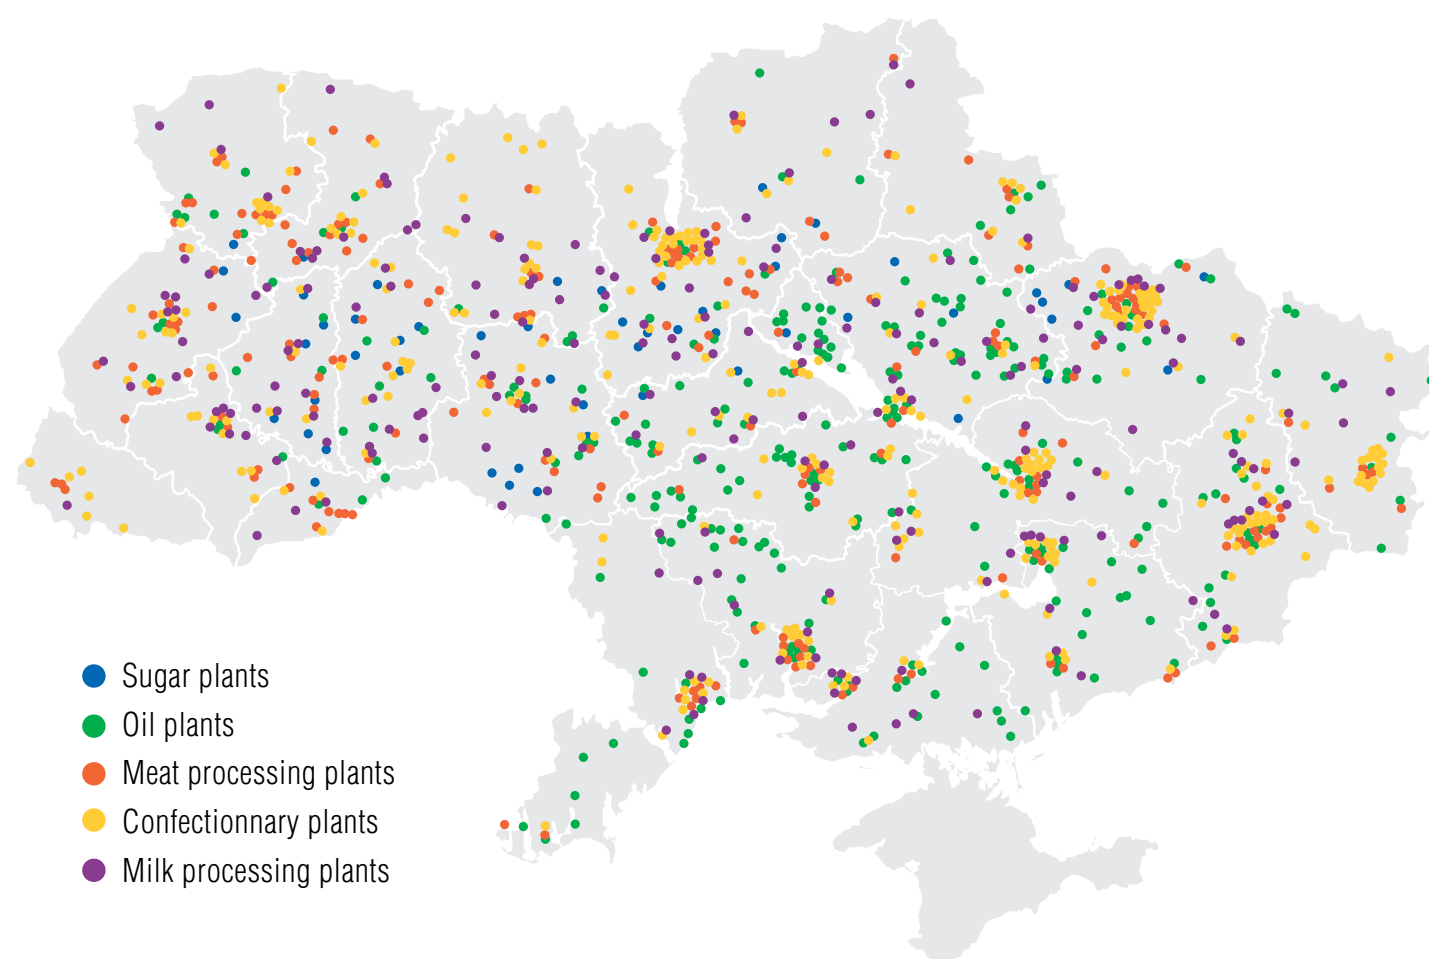

Ukraine is a member of the United Nations, the Council of Europe, the International Monetary Fund (IMF), the World Bank, the European Bank for Reconstruction and Development (EBRD), the World Trade Organization (WTO) as well as a number of other international organizations. It also cooperates with the Organization for Economic Cooperation and Development (OECD), but is not a member.

MANUFACTURED AMOUNT OF BASIC PRODUCTS 2015 - 2016

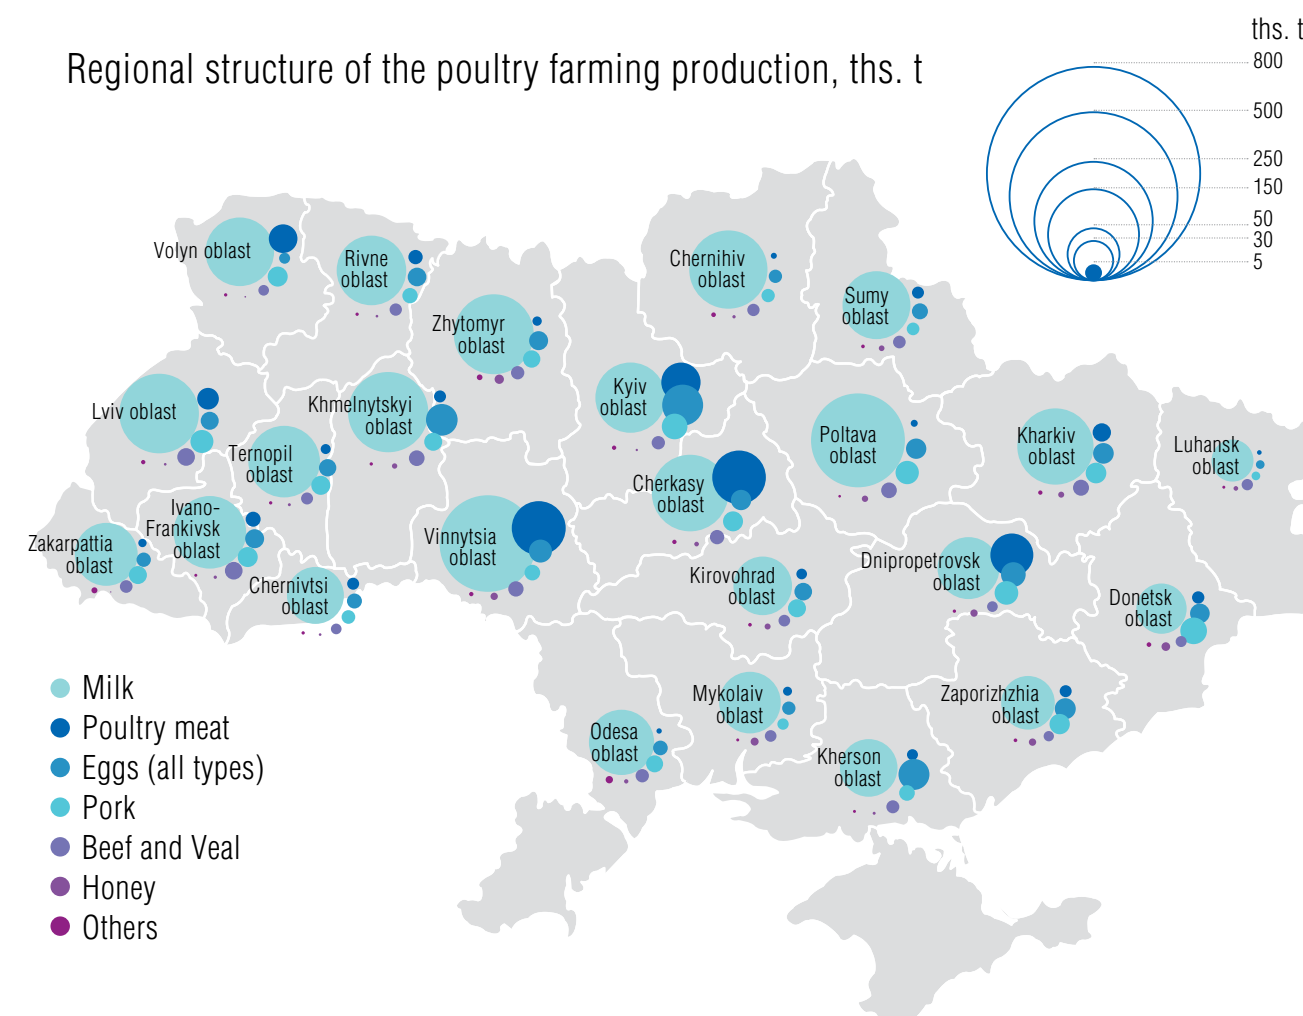

PROCESSING INDUSTRIES OF UKRAINE. MANUFACTURE CAPABILITIES

Ukraine exports the agrarian products in 190 countries of the world, milk in Jordan, cookies in the USA, water melons to Latvia, beer to New Zealand, cream in the UAE
